**Excellent Durability!**

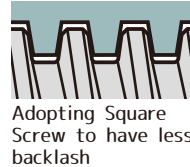

See how to use on youtube.

### Square Screw

### Square Screw

Adopting Square Screw to have less backlash

### Sharp Head

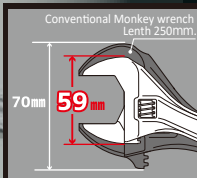

### Sharp Head

The end part is more sharp than our conventional products.

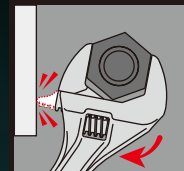

## IDEAL TOOL FOR WORK IN NARROW PLACE!!

Thin, light and compact! The lightweight design.  
**Eco Wide Series.**

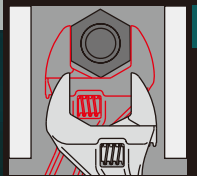

### Thin and light! Compact head.

20% compact compare with conventional monkey wrench. Show ability in narrow place and completed place.

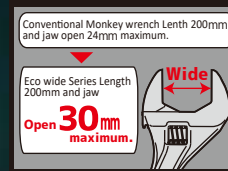

### No projection on lower jaw.

Useful to work at narrow place as there is no projection on jaw.

### Enough strength for both sides.

Improved strength of lower jaw. Able to use with inversion side. You can turn by catch and release the nut repetitively.

### Wide open jaw.

Wide opening jaw. wide use range.

※in the case of HY-30
